acoustic tropical pop... for the Jimmy Buffett lover. 12 MP3 Songs POP: Folky Pop, ROCK: Acoustic
Details: If there is music that will give you the sensation of being on the water then this project will take you there. These are a collection of songs Gary Ramey has written on his sailboat, but dont be lured into thinking that its all about sailing as there are a couple of hard driving songs as the Hurricane Song written during the four Hurricanes that came through Florida and Song for the Depressed written about a man who is caught up the daily grunge of the news and lives his life through it. This album takes you through different journeys from lost love to The Huki Wuki Bar and sailing up and down the Intercoastal, from dodging storm clouds and finally letting it all go and just sail away. This project was two years in the making, as Gary would say because we were busy sailing so we know you will totally enjoy the Music of Gary Ramey as you join him on his boat.
