

Mp3 New Invisible Joy - Pale Blue Day

[DOWNLOAD HERE](#)

A mix of subtlety and power that creates a swirling, driving aural headspace all its own. 12 MP3 Songs
ROCK: Emo, POP: British Pop Details: A full year in the making, "Pale Blue Day" is an aural masterpiece. From the trippy opening of "New Orleans" to the ethereal closer, "The Conversation", New Invisible Joy's debut release creates a breathtaking collision of art and music; inventive, creative and experimental. "Pale Blue Day" takes off with soaring studio effects and seems to surround you from every direction. Utilizing the studio as a palette for the bands two most gorgeous sounds; the tremendous, brave and delicate falsetto range of singer John Schisler, and the glowing Jimmy Page-meets-Jonny Greenwood style of guitarist Mike Gaydos. Combined with the power, taste and finesse of bassist Evan Handyside and drummer Brian Colletti, "Day" takes the listener on a dreamy, ethereal experience that lingers long after the final notes fade.
