Details: This compilation of treasured musical operetta classics recreate for me the romance and nostalgia of the past. Musical tastes continue to change but there are always those songs one loves to hear again and again. I tried to choose songs out of my early musical experiences, those that bring back memories of my grandparents and their exciting and lively parties at the Magyar Club in Chicago. Those memories are filled with the beautiful melodies played by ethnic musicians on their violins and accordions, and the fun everyone had dancing. The love of dance and the simple straight forward and lyrical songs of the Musical Theatre have always been a favorite. I hope you enjoy them as much as I do. \* Pamela sings "Think of Me" on her new CD Album, the original Diva "Carlotta" in the opening cast of "The Phantom of the Opera" in Hamburg, Germany starring Peter Hofmann. \* Her "Vilia" aria "brought her a well deserved ovation" (The Merry Widow)- The New Jersey Record \* Hailed for her "warm and pretty voice" (La Boheme) -The New Jersey Record \* "Supple coloratura" (Das Phantom der Oper)- Hamburger Abendblatt and \* "Range and power" (Die Fledermaus)- New York Newsday Pamela Sanabria has appeared on the operatic stage, in concert and in the musical theatre with the Metropolitan Opera Studio, New York City Opera Theatre, the Caramoor Festival, Wolf Trap, Cleveland Opera, Augusta Opera, Art Park, Opera Classics of New Jersey and the St. Paul Chamber Orchestra among others.
