Acoustic American folk from the road and the wrong side of the tracks. Alone and quiet on the back porch, in the smoke and noise of the bar rooms or on the edge of the city streets. Acoustic guitar with an uncommon cross section of instrumentation. 13 MP3 Songs FOLK: Modern Folk, COUNTRY: Country Blues Details: You need to know that Trevor is a mild mannered Ohio boy who has spent about half his life in the West. The stories he tells in his songs are always interesting, but sometimes they are also dark and difficult. Where in the hell did he get those stories? Visit Curbside Vacancy and get your first taste of the slightly dark-yet-inviting storytellers style. After hearing about this place a few times over a few years I can actually see it. Jim Stimson KRAI Radio With a voice that is slightly worn, Trevor G. Potter is able to convey the message of the songs he has written. The writing is the type that is not commonly found. The songs fall somewhere on the sorrowful side of what somehow feels sacred, and many represent the often unsung struggle of life's travels and trials. Beyond the weary messages and tellings of these songs is a cold comfort that there is hope and that one's spirit will stand strong and survive. Steve Boynton - E-Town
