Do your Blogs look just like every other Blog? With BlogSplash you can spice up your blog post and get them a little more noticed. A friend of mine James coded his own blog and when he did he added the ability to colorize the background of each of his posts. This got him thinking because some of his clients sites with their blog got some great attention when color was added. That is when his brain kicked into High Gear and he decided to make BlogSplash which will add images to your blog post. BlogSplash draws more attention to your blog post which is the entire idea. For a limited number of copies I am offering Full Master Resell Rights, I will limit this to 50 copies so it does not flood the market. I also included 10 high quality header images. These are quality and not just some free header images. Order your package now before my offer ends!
