FACT #2: Less that 3 of companies (even some of the largest in the world) who try to do business with the Government, will ever step foot into a Government office via invitation to do business with the Federal Government. FACT #3: On July 20th 2006, Stephen Pierce and his team walked through the doors of the USDA (United States Dept of Agriculture) office under high security to meet with top level agency executives. (See proof at the end of this email") FACT #4: There were 14 companies, all giants and massively larger than Pierce and Innovation Marketers and of the 14 only 3 were invited to meet with the Government in person...Pierce and his team were 1 of the 3! FACT #5: This is just one contract. Pierce and his team are working on contracts worth \$620 million, \$150 million, \$47 million and \$25 million. Other than that, Stephen is very busy doing some consulting work for corporate clients. In fact, he's preparing to secure a contract from the US Federal Government worth \$350 million US Dollar! Email copy from the US Government inviting Stephen Pierce to demonstrate his business system at the USDA. How important is this proof? The WORLDS LARGEST, most systems oriented and strategic organization in the world is the US Federal Government. Just so you know, the largest most formidable and competitive companies in the world fight to near death to secure contracts with the Federal Government throughout very long and competitive processes where only the strong and most strategic survive! Why Are You Doing This, Patric?" Because I know Stephen Pierce will be able to change your paradigm -- The way you approach and run an online business. You might be making money online today but you're probably waaaaay below discovering how much more you can actually earn in an online business. You see, I have my own "Chan Do" internet success system that teaches my students how to start a profitable online niche business. To access this, they pay between \$297 to \$597. So I know what kind of problems most people face and Stephen is the guy that can solve

their biggest problem. He creates instant paradigm shifts that most internet marketers don't have a clue about it. Most of them are still figuring how to use tactics, not strategies. Don't get me wrong, I'm not saying this to make me appear intelligent ... but there are many things that my students don't know about winning in a niche market. It's about breaking through that "barrier". It might be hard for you to believe this but Ego is not important to me in this business. I've told you earlier that I'm making money online from various of ways. It's about what I can do for other people, especially for hundreds of my own Chandoers (The Chan Do students). That's why, I'm using my personal friendship to get Stephen to do this for them. Then, I found it to be so powerful and decided to release it to the public at a fraction of the price as part of the Chan Do System's curriculum. That's why I'm doing this. This audio course itself is worth more than \$297 or \$597. I mean, his idea had made me over \$59,000 USD. You'll get so many ideas from one idea. But -- at the same time, I want to let you in an insider secret of mine. I'm hoping to massively expand on the enrollment of "Chandoers" in the next 3 years to come with several 'mastermind' elite marketers.
