

# Mp3 Dave And Maxine Morehouse - Mom, Me, And Hymn

[DOWNLOAD HERE](#)

These are the great hymns that we sang as kids in church done the old way. Piano and tight two to four part harmonies that you can just listen or sing along. Very inspirational. 15 MP3 Songs GOSPEL:

Traditional Gospel, KIDS/FAMILY: Kid Friendly Details: Maxine Morehouse was born Geneva Maxine Hill in September of 1927. It wasn't long after that she started playing the piano for the church choir. (Her parents were missionaries in the Church of God.) She has played in the church ever since and continues to play for the choir at age 78. For the last decade the idea has been in the back of our heads to record an album of the great old hymns that I heard my mother playing as I was growing up. During the Christmas of 2004 we finally got the opportunity. My mother recorded 25 of our favorite hymns in two afternoons pounding them out on the piano the same way I remembered from my youth. It wasn't until August of 2005 that the vocal tracks were recorded. All of the vocals and harmonies were sung by me (Dave Morehouse). Looking at the playlist will give you an idea of our favorites. The hardest part of the entire process was trying to narrow the list down to 25! We kept 15 for the album and the other 10 we will give to our grandchildren. Old time piano and tight harmonies with a powerful melody typifies the songs on this album. These are wonderful old hymns with a strong, old-time faith message. They are played up-tempo enough to make you tap your feet and want to sing. It would deeply please us to think that you are doing so. The album has been dedicated to her father (my grandfather), Reverend Max V. Hill. He still continues to guide and inspire us today 23 years after his entrance into Heaven. His favorite hymn may be heard on track 9, "Master the Tempest is Raging". These are great old hymns that you can sing along in the car or at home. We hope that you enjoy them as much as we have. May God Bless you and keep you, Dave. ----- The album was recorded at In the Chips Production. In the Chips Production is a small recording studio with a clear mission to cater to the

independent songwriter/musician who wishes to produce high quality demos or a full length album/cd. Located in the beautiful Upper Peninsula of Michigan, they specialize in unique, personal service for the first-time or aspiring singer/songwriter. They are located on the web at [inthechipsproduction.com](http://inthechipsproduction.com)
