a never ending rock n roller coaster ride. 9 MP3 Songs ROCK: Hard Rock, METAL: 80's Metal Details: jan.2,05-review from NY rock,street beat by bill ribas. Deadly Weapon, Deadly Weapon ( 2004 Rocky Records) Holy hair metal, Batman! Well, that was my first thought when I caught a glimpse of the photo inside the jewel case. My next thought was about hair-care products and costs, but my brain is a bit burnt, so don't get too upset. The good news is, well, if you like rock and roll old-school style, verse/chorus/verse/chorus/lead-guitar solo etc., then you're in luck. Yes, I said, "lead-guitar solo," just like the good old days. After all, the reason many kids picked up a guitar was not to play chords, but to play leads, to make the pained faces, to flick picks at the crowd, the whole nine yards. Deadly Weapon play rock in that old-school vein, and they do it well. Kind of a cross between Kiss and Dio, the music is a tad on the dark side, but immediately accessible. And while I try to think if there is a market for this type of rock at the moment, "Thunder in the Midnight" is playing in the background, and the lead takes off and reminds me of Ace Frehley, and I think, yeah, hell yeah, I'd go see these guys. You won't find ear-stretching pyrotechnics like Satriani or Vai, but you will come across licks from the canon of rock, and for me, at least, I just gotta smile. deadlyweapon.org DEADLY WEAPON - DEADLY WEAPON: Deadly Weapon is a four man, hard rocking band based out of California. All four members sing and two are producers. Their possible influences included Kiss and 80's metal. Deadly Weapon's energized style is propelled by two heavy guitars, a rock solid rhythm section and dark, daring vocals. Their nine-track, self-titled release features fast, furious riffs, roaring solos and kick ass beats. 'Don't Hesitate' is the strong opener that sets the tone for the rest of the CD. There is no holding back its intense guitar licks and driving beat. 'Whole Lotta Man' has a lot of wailing guitars and vocals layered over a solid rhythm. 'Thunder In The Midnight' is dark and thunderous with its cutting instrumentation. 'Blood For Blood' has

racing licks combined with passionate vocals and heart stopping rhythms. 'Always In Love' is their metal ballad with a catchy hook line. The second half of the CD returns to a hard driving format featuring a number of strong dueling guitar solos. If you are looking for straight edge rock and roll look no further than Deadly Weapon! \* Recommended Tracks: (1,5) [USA/CA 2004 - web] (Review by Laura Turner Lynch for Kweevak.com)
