

Mp3 Hold On Humanity - Warning Shot Ep

[DOWNLOAD HERE](#)

Heavy Metal 5 MP3 Songs METAL: Heavy Metal, METAL: Thrash/Speed Metal Details: Straight from the dregs of Whitestone, Queens Hold on Humanity dishes out a crushing assault of pure metal riffage combined with unique, thrashy undertones and melodic throat-scraping vocals, while still remaining true to the Classic Metal form. Their debut EP, "the Warning Shot" takes you by the throat and doesn't let go for half an hour, all the while punching you in the face with an onslaught of intense, emotional, and hate-charged music. Their ferocity is surpassed only by their furious, sweat-drenched live shows that leave your ears bloody and violated. This is one band not to be passed over.
