Contemporary folk pop rock with an edge. Thought provoking, raw and yet completely accessible. Honest songs with a lot to say. "...this is good stuff, every sentence says so much..." "...a refreshing alternative to mainstream corporate radio.." 10 MP3 Songs FOLK: Folk Pop, ROCK: Folk Rock Details: Thanks for taking a moment to consider my CD. I have been involved in the Minneapolis area music scene since 1979, performing as a solo guitarist / singer as well as fronting this current project, "Darwinfish" with Bob Wellhoefer as co-writer and co-producer. Bob and I have been collaborating since the late '80's and we have written many, many songs that we believe are deserving of attention in the music business. We feel that our music rivals in content and quality that which is out there today and are very excited at the opportunity to get it out in the public "ear" and hope it is well received. Our influences include Harry Chapin, The Beatles, Toad The Wet Sprocket, Indigo Girls, John Denver, Todd Snider, Tom Petty, Cat Stevens, Gordon Lightfoot, Simon And Garfunkel, to name a few. The style of our music falls into many genres. We believe that simplicity, honesty and the recorded live aspect in our presentation leads to an overall complexity that draws in the discerning listeners and keeps them there. This is the crux of we are all about. Over the years a nice fan base has grown. As a matter of fact, many of our listeners sing along with the songs at the performances. If I suddenly forget the words, there's always a fan that can shout them up to me. That's when you know you really have something to offer, when your listeners know your songs as well as you do. Please feel free to contact me at anytime with feedback, questions or booking information at mike.chevalier@spotsongs.com, spot@spotsongs.com or darwinfish1@msn.com.
