Details: Wiz is a guitarist/singer songwriter from Bundaberg Australia who owns and operates Ozland Music Studio. Wiz has been a professional musician for nearly 20 years. He has played in all sorts of bands, doing all sorts of music from Blues, Funk, Folk, Country and Rock. Wiz has toured Australia, done recording sessions, video clips, radio interviews and performances. Wiz has engineered and produced and mastered albums for many Australian artists. Although guitar is Wiz's main instrument, he is also a keyboard player - particularly in love with the sound of the Hammond B3 which features prominently in his original music. Wiz is a accomplished songwriter with a great voice. His songs are true songwriter songs. Although from "Down Under" Wiz has always had an affinity with the music of the American South. Its always hard to pigeon hole an artist, but if you like John Hiatt, Mark Knopfler or JJ Cale then you will like what Wiz does. Wiz is a very accomplished recording engineer, who also takes the time to help others via his tutorials. Wiz says... "I ty to write honest songs, I write about my own experiences and things that mean something to me. Hopefully that way, they will mean something to someone else. All you can do is wear your heart on your sleeve.....write and perform with sincerity, and hopefully, all the thousands of hours, and thousands of dollars you have put into your art and your equipment, will capture some of your true feelings and convey that to the listener..... I know for me, there have been songs that have evoked something deep within me.....if I can get that reaction out of someone else, then my job as an artist is done."
