

Fundamentals Of Cavitation

[DOWNLOAD HERE](#)

From the contents: Foreword. Preface. Symbols.- 1: Introduction - The main features of cavitating flows.- 2: Nuclei and cavitation.- 3: The dynamics of spherical bubbles.- 4: Bubbles in a non-symmetrical environment.- 5: Further insights into bubble physics.- 6: Supercavitation.- 7: Partial cavities.- 8: Bubbles and cavities on two-dimensional foils.- 9: Ventilated supercavities.- 10: Vortex cavitation.- 11: Shear cavitation.- 12: Cavitation erosion.- Index. EAN/ISBN : 9781402022333 Publisher(s): Springer Netherlands, Springer US Discussed keywords: Kavitation Format: ePub/PDF Author(s): Franc, Jean-Pierre - Michel, Jean-Marie
