A challenging and calming intermix of guitars, strings, Native American flute, keyboard and nature sounds for rub down or meditation. 10 MP3 Songs NEW AGE: Meditation, NEW AGE: Healing Equinox Songs  
Details: Inspired by the love of calming ambient music, the pine forests and glorious visions of the Mogollon Rim country of central Arizona and the desire to express myself musically, this CD came about as a Day Spa marketing tool and a life long dream come true. With the desire to be unlike anyone else in the instrumental/healing/meditation genre, I intermixed several instruments in an almost impromptu and somewhat spritual fashion. With all the sounds of nature being recorded live, you should see as well as hear each compostion, taking you to another place and time. Music theater of the mind. Enjoy the eclectic fantasy and let your mind wonder while you rest and heal. Come take a vacation. Your comments are welcome. Thanks and God bless! Arden This is what others have had to say: "It get's better every time I listen" ..Karen M.-Pine AZ "I really love it and so do my clients. It's great for Massage" ..Darcy E.-Costa Mesa CA
