The latest recording by Vermont's award-winning songwriter and producer Colin McCaffrey; TIRED OF TOWN is a collection of vintage sounding swing, blues, country and folk. Sparse and tasteful acoustic music sets the stage for Colin's smooth and distinctive voice to interpret classic tunes from the 20th century by Fat's Waller, Hank Williams, Jimmie Rodgers, The Delmores and Merle Haggard. Nestled among the Chestnuts are four new original songs and covers of tunes by Pete Sutherland and Lewis Franco. "With minimal instrumentation, a wide variety of songs from his own songbook and that of other, strong composers, he has achieved a very well rounded, easy to listen to and satisfying album." - The Times Argus "A gloriously tidy affair... Tired of Towns spare, lovely arrangements leave no place to hide. But talent like McCaffreys needs no obstruction; he goes out on the ledge with confidence." -Seven Days
