Contemporary Christian with an alternative folk twist, weaving acoustic, electric, and vocal harmonies together. 11 MP3 Songs POP: 90's Pop, FOLK: Power-folk Details: Inception is the first offering from Damon Osborne, and is a moving testament to the healing power of God's love. Heavy on the acoustic guitar and vocal harmonies, Damon paints a portrait of sadness relieved by the love of God, and the people on Earth he sends to his children. Special guest artists (and friends) round out this special tribute to those who are there to help us when we're down, especially the Lord above! He travels to Churches in Ohio and the surrounding states to share his message with others who need to know God's love, especially in times of trouble, so if you enjoy his music, check out his website and book him for an engagement at your place of worship!
