A Fun, Musical and Educational Journey Through the Solar System. Blast off to your favorite planet. Fun filled and information packed songs for grades K-6. 11 MP3 Songs KIDS/FAMILY: Children's Pop, KIDS/FAMILY: Kid Friendly Details: An entertainer of international experience for 38 years Steve Hennessy has developed Dr. Planet- a combination of musical culture and curriculum-based information on the solar system. A parent and former school board member he is keenly aware of the need to supplement the subjects taught in school with material that is innovative and fun. Music presented in a variety of styles and forms also enhances the discovery of the art itself. Combined with curriculum-based subject matter makes it all the more special. Dr. Planet captures the children's imagination with clever lyrics, catchy songs that combine useful information with having fun. Dr. Planet not only educates but entertains.
