Drawing from influences like U2, Depeche Mode and The Cure, Flurish ranges from a flurry of ethereal orchestral rock to 80's electronic pop that makes you want to get up and move. 6 MP3 Songs POP: Pop/Rock, POP: Ambient Pop Details: Drawing from influences like U2, Depeche Mode and The Cure, Flurish banded together to create intense, beautiful rock and roll and that's exactly what they do. Over the years, their craft has matured as their sounds range from a flurry of athermal orchestral rock to 80's electronic pop that makes you want to get up and move. Not only does Flurish constantly strive to reinvent the limits of pop music, but their unorthodox live performance has been turning heads for years. For such a massive, sweeping sound, one would be surprised to find only 2 guys onstage. How do they do it? One might ask. With the masterful use of technology and an electrifying dynamic, Flurish has discovered that 2 is all you need. When taking the stage, the band is confident in their ability to take the crowd to the next level, giving them something they've never seen before. "Flurish's unique live show has made them one of the fastest growing bands in the city considering their relatively short amount of time on the scene. This is definitely a band to watch in 2007." Jay Harren (A&R Representative - Columbia Records) "Flurish should be an inspiration to all bands pursuing an independent career in music because of their pure devotion to song writing, recording and live performances." Steven Tracy (The Myriad - Floodgate/Warner Records) "The audience was not disappointed in the least by Flurish, who sparkled onstage with their dreamy, lightning like tunes. Their heavy percussive pulse was felt by all in attendance, and the passion of the group was genuinely evident and particularly embodied by the band's lead singer and perplexing choice of instrumentation as their smoothly structured sound made transitions from one song to the next with sterling precision." Shawn M. Haney (Performer Magazine)
