DC Gurly Show New CD Info: Available on CD Baby.com [cdbaby.com/kittenotk3](http://cdbaby.com/kittenotk3) Kitten on the Keys recorded her 4th Studio CD "Salty Meat Girl" in honor of a recent three month residency with the French Produced Show "Cabaret New Burlesque" in Nantes, France May-Sept 2007 . She has toured with this show four times and wanted to write songs that would be familiar yet break the language barrier with over the top antics and promote smuttiness..... There are MANY wonderful covers on this CD including the Betty Boop Theme Song, Mae West's Mr Deep Blue Sea, I want to be bad (the first 1920's music I owned thanks to Peter Mintum of Cockettes fame!), Ukulele Ike's "My Dog Loves Your Dog", Hot Nut Swing, The Pussy Cat Song-Complete with my own pussy posse PUSSY SCAT RAP, and Brel's dramatic Amsterdam...which can also be Hamsterdam or Dental Dam.....depending on the mood I want to set. Oh and one film buff LOVED my cover and

insertion of "San Francisco" into Lida Roberti's Big # from Million Dollar Legs (1939) It's Terrific (When I Get Hot) ORIGINAL's Notes: I Wanna Be Like Liberace-who doesn't! I wrote this after I was allowed to play his mirrored Baldwin Grand at his museum in Las Vegas...I wept and thought I would go to HEAVEN....My new name is Libera-SHE (I do him in drag with Gregangelo's Velocity Circus!) or Libe-CROTCHY when I am feeling frisky and freaky! Pope Mobile: Conspiracy Theory! They Euthanized the POPE! I wrote the lyrics while he was dying....he left behind a cool car like the weiner mobile or Bat Man's Batmobile. I was suddenly touched again by him and his botched tracheotomy SO I wrote the tune ASAP-the cheesy keyboards reflect his assension into HEAVEN. amen. harumpf. Leather Daddy.....a true story...how pent up our little kitten really is. After a horrible marriage-she begs her husband to do a little somethin' somethin' to get her goin'- like just some basic SM 101? PLEASE!!!!!! so.....while in France..... I would ask audience members to come up and slap my ass along with the music- so I had to learn "Slap My Ass Harder!" in French.....(bumtap sur la fesse si vous plait!) . They are quite a rhythmic nation.....my ass was SO BLACK AND BLUE when we were doing 6 mighths a week.....At one point I had "little People" from the cover band "MINI KISS" slapping my ass while I am half nekkid in a pretty black and red Weimer-esque look-black corset and bitch boots with shirley temple hair. VERY SURREAL...their hands were very small. They thought their hotel room was small. WOW- .....I love a good foreign cunt-try. Salty Meat Girl is about....craving salty meat A LA MODE when your hormones are out of wack.....I modeled it after one of my musical heroines-Dinah Washington! I love her double entendres! Heck, this one is so OBVIOUS though! I heart MEAT! I have a funny outfit I made especially for this # ..... sparkly dog chew toys in the shape of meat. I have a hot dog pussy, hamburgers on my ass and chops on my boobies while I nibble a chicken leg....HMMMMMM meat! Geriatric Punk Rock Boyfriend is gonna be the first Music Video- I am hoping this AMAZING video artist will collaborate with me from France. We ran out of time. THink about it....punk rock has been around A LONG TIME...all of my heros are dying like Johnny Ramone etc....So I wrote this about my boyfriend who spent LOTSA years in the SF Punk Scene with Flipper and Polkacide to name a few. The little dance that goes with it is HILARIOUS.....I forsee it bigger than the chicken dance or Macarena.....(wishful thinking) PETA Puta-someone is mad a a role playing DOGGY! Get your muzzle outa here! Dog vs Cat on this Silly Vaudevillian tour de Farce!!! NEWS: I just put out a cute coloring book called "color Me KITTEN" inspired by the illustrations of Joshua Ellingson! [joshuaellingson.com](http://joshuaellingson.com) Just appeared on the Boob Tube-National Geographic's "Secret History Of The Bra"
