Electronic down-tempo chill and trance music. Get in your car and drive. 14 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Down Tempo Details: Parmidian One is the electronic muse of Todd Carter. A spaceship circling the planet, an ancient statue of askesis. Parmidian One is currently combing engine dust with the likes of Juan Masotta and Grass Pig. Destined to undo the fateful coincidence of pre-destination and freedom of the will such tracks as The Gnostics seek to undermine orthodoxy while maintaining a theistic atheism. Since the age of five Carter has been around the globe seeking to uncover the source of the feeling that he is just not enough. Parmidian One is a group of strangers calling names and preferring to be left alone to metabolize what once were unknown transferences.
