COUNTRY: Americana, EASY LISTENING: Mature Details: "Boomer" music, easy-listening, mostly acoustic melodies you can remember and lyrics you can understand about the experiences and interests of "Baby Boomers." It takes roughly 43 years of living to get a real handle on life. If you haven't lived that long, you'll need Parental Guidance to fully appreciate this music. The songs are about being wiser as you age, gravity making parts sag on your physique, trying new things before you physically can't, and other "boomer" topics. Some others apply to everyone, though, like a song about the beauty of Kentucky.
