Funky Pop Jazz with a Bad Cover Design 10 MP3 Songs JAZZ: Smooth Jazz, JAZZ: Jazz Fusion Details:

Please don't judge the proverbial book by it's cover! The photo of myself gazing softly into the distance certainly does not represent the energy of the tunes and improvisations on my debut recording. Be sure to check out the harmonica work on 'Mississippi' and the superb techno-funk production of 'Infinity'. My other two favorite tracks are Joywind and Strength. NEWSFLASH!!! My new Christmas album "Snow on Snow" is also available on cdbaby. Both records produced by Ed Goldfarb reknown for his filmscore work with Francis Ford Coppola as well as studio projects with everyone from Boyz II Men to KD Lang. My new EP featuring my singer/songwriter material will also be available soon.- Regards, Ross Walters

"Hornman/harpist Ross Walters has just released his self-titled debut project. A truly talented artist with a dynamic contemporary R B edge, Walters has assembled a red-hot roster of Bay Area players to perform on his CD, adding the right touches to his own high energy performance which virtually pulls you into the mix...The entire project is brimming with tight funk arrangements, catchy rhythms, and, of course, Walters' soulful sax and hot harmonica, all tastefully and intelligently delivered. " The Claw "Ross Walters - remember that name. He's not only a talented songwriter and saxophonist, but an underrated harmonica player as well. I asked around to find out more about this individual and was left to fend for myself. His debut self-titled release was recorded at Astral Sounds with Bill Hare at the helm...The all-instrumental project includes fine arrangements and excellent production in sound." Inside Entertainment Ross Walters has been performing and recording on a professional basis since 1981. He has supported a diverse array of talent with his skills including Donna Summer, Boyz II Men, Bob Carlisle, and Carman. He is currently travelling with Denver and the Mile High Orchestra and that other guy that wears a white suit. Ross lives in Franklin, Tennessee.
