STYLO is unlike any Artist to come out of the Midwest, stunning listeners with incredible versatility and delivery of his music. It can be said that at the young age of 19, STYLO is a lyrical genius. This CD is one C.D you will enjoy from beginning to end. 13 MP3 Songs HIP HOP/RAP: Hip Hop, HIP HOP/RAP: East Coast Details: Stylo is the name and I got it from the Spanish word "estilo" mixed with the English word "style." I'm a 19 year old Mexicano from South Omaha, Nebraska. Yeah, I said Nebraska. Not the biggest Hip-Hop place but I'm making sure it becomes something big. I don't portray the normal "Chicano rapper" nor do I enjoy that label to be put on me. I'm an emcee to the fullest and nothing else. I look at myself as a spokesman for the average hood cat in the Midwest. Since the age of twelve I've been in love with Hip-Hop. Being into writing; emceeing kind of fell into place. It started off as me and my younger cousin doing it. He stopped and I didn't. I felt I had a talent in this and things moved on from there. I started writing and freestyling everywhere I went. I became known around my part of the city as one of the best Mexican rappers around. I hooked up with Edgar De Leon, a guy I knew from around my way who was into helping young cats like myself, and had him listen to one of my songs that I did. At that time he was just getting Vive Grande Entertainment started, after seeing we had similar ambition and desire to make big things happen in our city, we decided to go into business together, with him being my Manager and I became the company's first Artist. As soon as we got started we hit the ground running, working for months non-stop, from there came the mixtap, "Mic Killas" and then eventually my first album, "Call it What You Want." Currently I'm the only Latino rapper in my city getting the most recognition and soon many more will. It's the feeling that you can do something that can affect people that got me addicted to this culture. In this world full of letdowns the only thing that kept me going with my music was the motivation from my peoples that always believed in me and especially the inspiration that I've gotten by

my girl. It might sound cheesy to some but she's the only thing that keeps the fire for me to succeed burning. I'm here to break the stereotype of a Mexican rapper and I can't stress it enough. They see us and automatically see a certain type of rapper. I rap what I feel and say it the way I talk. I don't sugar-coat things and usually it gets me in trouble. I'm a realist. Since I'm from the middle of the map I'm influenced by everyone in the game. So to label my style is the job that is left for the listeners. Listen to something new for a change.
