Her muscial influences are folks like the Carters, Ralph Stanley, Dolly Parton, Emmylou Harris. Susan works with her husband, Bill, who is also her producer. They have been local for several years but are beginning to branch out. She hopes you like this CD, as much as she and Bill liked creating it. Her music plays on radio stations in 12 countries and 8 states in the USA. She also hopes to see you at one of her shows soon. Entertainment for the whole family!
