Your "Back Up Against Da Wall" can make u grimey 7 MP3 Songs HIP HOP/RAP: Hardcore Rap, URBAN/R&B: R&B Rap mix Details: Tee of Hidden Treasure is back at it again, but this time it's not the same killer gospel tracks we're use to, but that "raw and uncut flow" Philly Urban Expression. Tee Dawg, now the new name chosen, knows it's a doggy dog world out there, no brotherly love, realize as much fun as his gospel music was in the making of it, it was time for T-Dawg to move onto bigger and better things that the youth outside of the church can listen and relate themselves to, now with his new and improved, self made, heart felt to the soul, ready to enthuse the world music. There are many ins and outs with hip hop music, the problem with his gospel days was that he realized that the churches these days, unless you're a member very seldom supported the saints. Being a member of an 11 million dollar budget church, Mt. Airy Church of God in Christ did not want to financially back him up to make his music as big as it should have been. Tee Dawg had finally come to grips with the fact that he needs to be out for self. He needs to be heard. Tee Dawg had to get it the way he knew how, he realizes that without money he will not be able to do the things necessarily such as; promote, market, produce, and record along with the many other things that come with the territory on making new albums that the public will listen to and grow to love.
