[DOWNLOAD HERE](#)

All-original, acoustic and vocal music rich in harmony and instrumentation, a mixture of folk, rock, county, bluegrass with a hint of jazz. 13 MP3 Songs FOLK: Folk Pop, FOLK: Modern Folk Details: The Heard has been playing since 2002 when four singer-songwriters joined forces to produce a folk-rock-country-bluegrass-jazz group with four part harmonies and a blend of acoustic instruments. Think Kate Wolfe meets Crosby Stills and Nash with a dash of Peter, Paul and Mary thrown in. Now add some Sam Bush and a bit of old time rock and roll and well, you get the picture. We just call it Impure Folk! The Heard plays songs that can carry you away, put a smile on your face and sometimes even make you cry. This is music for your Saturday morning cup of coffee... and for your Saturday night microbrew. Rich vocal harmonies balanced by crisp instrumental work, all original. Band members, in no particular order are: MB Whitaker on vocals, guitar and percussion; Mark Utting on vocals, guitar, mandolin and dobro; Daniel Reid on vocals, standup bass and percussion; and Josh Bogle on vocals, guitar, slide guitar and percussion.
