Singer/songwriter oriented Modern Brit-Rock with an electronica feel 12 MP3 Songs POP: Power Pop, ROCK: Modern Rock Details: After several years in Florida and Northern Europe touring as a solo artist, Rick Bauer has joined forces with drummer Rich Pistocchi and Bassist Rick Bauer (known to all as Pops!) to form a power trio that has already garnered local and international acclaim as one of the most eclectic and capable three pieces anywhere. Within a year and a half, the group has successfully launched a European tour, landed top-notch legal representation and performed over 350 shows in venues as diverse as the musical capabilities of the group. From all acoustic sets dominated by moody three-part harmony to power housed Brit styled rock shows, the Rick Bauer Band represents seasoned, solid live performance at its best. As a cover band, the group boasts the largest songlist likely to be found with over 300 tunes spanning folk, funk, retro, classic, alternative and modern rock. As an original act, the group brings to life the award-winning songwriting of Rick Bauer enjoyed in clubs and on radio in Florida, Denmark, Norway, Sweden, Finland and Greece with a minimalist precision. Comprised of father, son and friend; when pooled together this trio has over 50 years of professional musical experience. Featuring tracks produced by breakthrough indie Producer James Wisner (Dashboard Confessional and Rocking Horse Winter) we welcome you to enjoy the Band's first full-length release, Daybreak.
