

# The Cambridge Companion To Herodotus

[DOWNLOAD HERE](#)

Herodotus' Histories is the first major surviving prose work from antiquity. Its range of interests is immense, covering the whole of the known world and much beyond, and it culminates in a detailed account of the Persian Wars of the early fifth century BC. Moreover, research has shown that Herodotus is a sophisticated and at times even ironic narrator, and a pioneer and serious practitioner of historical research at a time when the Greeks' traditions about their past were still the fluid transmissions and memories of a largely oral society. This Companion provides a series of accessible chapters, written by distinguished scholars, illuminating many aspects of Herodotus' work: his skill in language and his narrative art; his intellectual preconceptions; his working methods and techniques; his attitude towards nature and the gods; his attitude towards foreign cultures and peoples; and his view of human life and human history.
