

Mp3 Chris Mills - Fire All Around

[DOWNLOAD HERE](#)

Pop/Rock with an electronic touch. The album is based around a vision of God in Ezekiel. 11 MP3 Songs
POP: Piano, GOSPEL: Contemporary Gospel Details: This album was written over a period of 18 months, and released in 2003. It features Rick Sifkus a brilliant guitarist with a strong metal style, the first song was also co written with Rick. Fire All Around is still my favourite song on this album because it was the first time I had good electronic tools to help me achieve the sounds I had imagined but never been able to produce in a recording. I am amazed that even in a foreign country where people do not necessarily understand english the music still seems to attract attention. This album also has some profound thoughts and prayers that came through times of difficulty. I have always tried to be honest in what I say in my songs and I really feel that brings more power to the music as a whole.
