Uplifting Electronic Pop/Rock for the masses. Catchy hooks, great lyrics and well produced. Howard Jones described it as "Absolutely Fantastic." Unlock your inner potential and release the DREAMER in YOU.. 16 MP3 Songs POP: with Electronic Production, ELECTRONIC: Pop Crossover Details: Corey Stuart hails from Kinston, NC but now calls NYC his home. This 30-something has been making waves for the past 25 years writing electronic music, but the real tsunami is about to hit with the release of his first CD, "Dreamer." Described as an "explosion of feelings, ideas and music," no leaf is left unturned as he progresses from song to song. The CD is self produced by Corey, with all instrumentation, vocals and harmonies done solely on his own. Although he's not in the ranks of mainstream artists(yet), Corey has already managed to play shows abroad in England. And, on two separate outings, headlined music festivals in Celaya, Mexico. Stateside, he's opened for artists such as LaBouche and Howard Jones, and even sang once with Joey Fatone of NSYNC. If you can appreciate Eurotrance, Rock and Pop, you'd do your auditory senses good by adding "Dreamer" to your collection.
