Described as "tragi-rock" or "angst-rock", Soul Searching is a powerful "state of mind" record. It's music from the soul (if you've got one.). Guitar based, hard driving and to the point. "A new kind of Alternative". 9 MP3 Songs ROCK: Modern Rock, ROCK: Progressive Rock Details: I began seriously writing and recording in the early eighties and continue to this day. Technology has finally made it easy to create recorded work I'm proud of. A bit on the dark side, I think my music speaks to the soul. The "thinking person's darkwave".
