Therapeutic experimental electronica via symmetric biphasis square pulsations. 12 MP3 Songs
ELECTRONIC: Experimental, POP: with Electronic Production Details: Electrostim is Dave Ramirez, guitarist for the late New York City pop group, Hypnolovewheel. His debut recording, "Wake Up And Go To Sleep," marks a radical departure from the psychedelic sprawl of his former group, into the realm of electronica. The 12 instrumentals touch on a wide variety of twisted sounds and broken beats while ultimately maintaining a melodic core. "Wake Up And Go To Sleep" is the second release on Geodesic Recordings, founded by Dave and fellow Hypnolovewheel guitarist Stephen Hunking, who recently released his debut CD under the moniker Dew-Claw. "Licked" is also available from CD Baby.
