Notice that even the title is a paradox just begging to be unravelled - explained. Spin this CD and the answers will come. But be prepared to pay the price of feeling your feelings in order to unravel this collection of songs. Joey sings about the experiences, strength, and hope gained from living in an alcoholic home where nobody's needs were met. Incest, domestic violence, neglect, and sexual abuse, were active hurdles along the gauntlet of this artists life - this survivor. But the beauty is that, through years of help in recovery programs and learning to love God, much of the pain of this experience has lessened. And the gift of helping others is being passed on through song.
