KATIAH, A CAPSULE LOOK Kathy Hill is a blonde Southern beauty from Atlanta, Georgia, stage name KATIAH. Katiah began her career at age 16 as the lead singer in a 50's style band. Although she doesn't remember how or why, she hooked up with a county band and was soon show stopping in such legendary venues as 'Nashville Sounds' and 'Miss Kitty's Country Showcase'. After recording some sides in Nashville with the top musicians and producers she realized that something didn't fit. There was too much natural vocal talent, range, expression, dynamics, heart, and feel demanding to be set free and typical country songs didn't-doesn't require the kind of skills that Katiah has. Then by a stroke of luck arranger-producer Gerald Nelson needed a strong vocalist to record a demo for another artist. Chesley Stephens, songwriter and guitarist, recommended Kathy Hill. Instantly, Gerald recognized that indeed here was a special talent, something different, and something very unique. Having worked with enough top artist to cover this entire page including such stars as Elvis, Brenda Lee, and Charlie Rich he also realized that they would have to record song after song after song to develop and find the correct combinations to launch a lasting career. Katiah said, "Let's do It" AND they did and herein are just samplings of the result. We sincerely hope you enjoy the recordings as much as they did in making them.
