

Mp3 Samsara's Edge - Samsara's Edge

[DOWNLOAD HERE](#)

Ambient-world; Celtic/mid-eastern influenced female vocals, slightly trip-hop trance 8 MP3 Songs

WORLD: World Fusion, ELECTRONIC: Ambient Details: "Samsara's Edge -- new release by main duo from the Haunted By Waters group. Great vocals with urban world/tribal Samsara's Edge backing. Picture Loop Guru, Lost at Last or Stellamara with a lot of edge, including guitar textures reminiscent of U2's guitarist Edge..." --Loyd's Picks, Backroads Music "...when the occasional gem comes along, it's reason to rejoice...the instrumental sound is impressive...intelligent, humane, artistic songwriting is the key to Haunted By Waters." - BAM Magazine David Hannibal and Cait McWhir were co-founding members of the popular Bay Area band world-beat/trance band Haunted by Waters before their collaboration on SAMSARA'S EDGE. Two years in the making, the 8 songs featured on the CD are an intriguing and evocative blend of multi-textured, electronic, hypnotic grooves. Vocalist Cait McWhir's trademark blend of sensuous Mid-Eastern, Celtic influenced vocals add a definite other-worldly feel to the mixes. While there's still a world music-positive flavor to many of the songs, there is something of an urban-trance flavor weaving its' way through this album. Singer Cait McWhir, originally hailing from Ireland, draws her inspiration from years of indian and middle-eastern spiritual and vocal practices "...Cait ...is a wonderful singer with a stunningly rich and yearning voice...."(BAM Magazine) David Hannibal is a talented sound designer who has worked with synthesizer and sampling technology for over 10 years. His sampling work can be heard on prime time television series and in major motion pictures. Oakland poet and artist Juan Domingo throws a couple of native-american influenced spoken word tracks into the mix David Hannibal - Electric Guitars, Synthesizers, ProgrammingCait McWhir - Vocals, Percussion, Whistle flute, Synths Juan Domingo - Spoken word
