Very fun, sexy pop/rock music with a bit of alternative country mixed in. Sultry female lead vocals backed by rockin' guitar, bass and percussion. 5 MP3 Songs POP: Folky Pop, COUNTRY: Alt-Country Show all album songs: Sugar Ponies Songs Details: We'll add more to this as time goes by, but here's who we are in a nutshell. Suzanne Kramer and Michael McGovern make up the core of the Sugar Ponies. We wanted to be the Pony Girls, but that is a lesbian, S&M sex fetish involving riding crops and whatnot. To avoid brand confusion, we modified it to the Sugar Ponies. The main reason we are doing this project is to create music together. We love it. Sure we hope to sell some CDs - they cost enough! - but really, its the love of making music that keeps us going through the more expensive and difficult moments of the process. We hope you like the music. If you want to join our mailing list, you can send us an email at info@sugarponies.com.
