Neo-classic rock with electric cello 5 MP3 Songs ROCK: Classic Rock, ROCK: Modern Rock Details: The Helots The Helots ('hl-lts) have liberated listeners from the monotony of everyday music life by reincarnating classic rock, combining new and old; creating a sound that is familiar, yet unique. The Helots have also liberated themselves from the Pharaohs of corporation rock by returning to a classic style that was made popular by bands such as The Beatles and Cream. By adding an electric cello to the standard four-man line-up, they have infused their music with a timelessness that refreshes the ears, comforts the spirit, and excites the body. This is the sound of The Helots.
