[DOWNLOAD HERE](#)

Rock and roll, has a very mystical vibe and social consciousness. 11 MP3 Songs ROCK: Modern Rock, ROCK: Psychedelic Details: Thomas Floyd has teamed up with too very great artist for this album. Charles Levi adding lead guitar to five of the eleven tracks and Les Sharp playing Drums on six tracks. The results are exciting profound and relevant. Although Tom's new album is mostly rock orientated as evident with songs like "Shadow Land" and "America", the album also offers the listener some really beautiful mystical tracks as well like "Shamans Death" and "In The Night" and a couple of very warm, meaningful folk tunes featuring Thomas with his acoustic guitar and harmonica. Thomas Floyd is a gnostic seeking spiritual truth; he is an environmentalist and peace activist, a father, a husband, a son, a brother and so his music reflects that. This album will be difficult for you to make comparisons too, I urge you to listen. Very original work from a very original artist. Thomas Floyd With Charles Levi And Les Sharp.
