Date: From: Your Name Dear Friend, It's crazy... You've got all this "background" work to do and SO little time to do it. You KNOW what I'm talking about. Getting the rank and rank statistics of your own web pages is key to operating at peak search engine and marketing efficiency. And it certainly doesn't hurt to know the rank of your competitors' sites as well. The trouble is... gathering this type of crucial information can eat up hours and hours of your valuable time. And I'm certain we can both agree that time is one of (if not THE) most important assets we webmasters have. So how do you keep up with page ranks -- yours AND the competition -- without having to invest even more hours of your precious time? NO problem! The Great And All-Powerful Rank Wizard Comes To The Rescue! At a desk, not too long ago... I've been sitting at my computer for several hours, gathering the rank and rank statistics of hundreds of pages on dozens of websites. ONLY person who needs a program to do this kind of work for me. So... Like every other occasion when I'm hoping for a time-saving, work-reducing solution, I start searching the 'net. And as usual, I come up empty-handed. Oh sure, there are various programs and services out there, but nothing that does the exact job I want and NEED it to. So yet again, there's only one thing left for me to do... I'll have to create my OWN software program! And you know what? That's precisely what I did! And the name of this little fellow? SEO Spider. But don't think he's just some insignificant "bug". This guy is WAY powerful. Just Turn SEO Spider Loose And Let HIM Do All The "Grunt" Work! Here's the deal... The whole point of creating SEO Spider was to reduce the time and work involved in yet another important webmaster task.
