Outsourcing is nothing new. Brick and mortar businesses have been doing it for years. But what may surprise some people is that online entrepreneurs can also use this common business strategy with a great deal of effect. Of course, outsourcing is not ideal for everyone. But by understanding the basics of what outsourcing is, how it works, and how it can benefit a business, it is possible to make an educated decision about whether the approach is right for your business. Just What Is Outsourcing? In the broadest

sense, outsourcing is an approach to task management that involves utilizing resources that are outside the direct control of the company to handle tasks that are relevant to the operation and success of the business.
