Advocating a new form of leadership that places the health and well-being of people and the planet first, this book proposes a new Earth law, a framework for sustainable development and international environmental governance. As it argues that the planet is not the exclusive preserve of the executives of the worlds top corporations, this volume illustrates how the law can be the catalyst in a shift of attitude away from regarding the Earth as something to be owned and traded for profit. Detailed and passionate, this is a holistic approach to law, business, and the environment in the battle for the ecosystem.
