you need to know about running a successful and profitable membership site. This 12 part, step by step program takes you from the very basics through to advanced concepts such as retaining members and avoiding the common mistakes many people make with their membership sites. Many marketers consider running a membership site to be a black art, but once you understand how they work and what people want from them they are surprisingly easy for you to set up and run. In fact, they are so easy you can even set them up to run themselves completely on autopilot depositing money in your Paypal account every month with no interaction from you at all! This is the beauty of membership sites and why so many marketers have fallen in love with them. A membership site can turn traditional marketing on its head and make the sales process much easier for you. In many situations, you earn significantly more from marketing to your members than you do from the membership site fees themselves. The possibilities and earnings are limitless! "Testimonial Here" Name Location Whatever your background or skill level you can set up membership sites and profit from them. It doesn't need any specialist knowledge and if you are smart (and watch video 7) you will be able to get other people to create your content and often for free!

Just How Profitable Can It Be? Let's say you create a membership site and charge just \$27 a month for access. For most people that's not a lot of money. Instead of selling this as a single product and trying to make say a hundred sales a month, it is a membership site and you get a hundred people to sign up. That's \$2700 in your pocket straight of. Best of all, the next month instead of having to try and sell another hundred copies of your product you have a hundred members who will automatically give you their membership fees, another \$2700 in your pocket. Let's say in your second month 20 members leave but you recruit another 50, giving you a total of 150. You are now up to \$4050 in membership fees a month, and that's not including anything you make from selling to your members! If we imagine that after a year you have 500 members, which isn't a lot then you are earning a cool \$13,500 a month from your members! You can probably add another 50 to that from promoting products to your members! If you really went for it to promote your site and got a thousand members that would be \$27,000 a month just from one site! But what if the site charged more for membership? The possibilities are truly limitless and you can create as much money as you want from your membership sites. Imagine you have your one site earning you \$13,500 a month from just 500 members and you duplicate it a few times? What would that level of earnings do for your life? Who Can Run A Membership Site? Anyone can. Literally, anyone. It doesn't matter whether you've been to college or even finished school. It doesn't matter if you have no

idea technically and struggle to even switch your computer on. Anyone can run a successful membership site and with thousands and thousands of potential niches out there it is easy for you to find a site that is profitable for you. You could start by creating a membership site build around a hobby of yours, or maybe a sport you enjoy. Then maybe you can branch out in to other niches as well.
