Pure mood enhancing ambient sound flows and mindscapes which free your imagination to travel the innermost and outermost reaches of rich aural tapestries. 8 MP3 Songs ELECTRONIC: Ambient, NEW AGE: Ambient Details: My journey into Ambient/Space/New Age music started back in 1987 when by chance I happened to tune into a radio program I hadn't heard before on the local PBS outlet. The program was Stephen Hills extraordinary offering "The Hearts of Space". This one exposure to the realms of Ambient music struck a very resonant chord inside my conscious. And it hasn't stopped reverberating yet these 19+ years later. After 10 years of listening to HOS and collecting a large..read VERY large collection of albums in the space music genre. I began studying the music at a deeper level than just the average listener. I began experimenting with compositions of my own and for my own personal use. In the intervening years I have added and upgraded the components of my studio and my understanding of this wonderful genre. I have some of my old recordings which have never been released and as always I have new material weaving its way through the ambient spaces in my mind. I am in the process of actively producing and recording these aural flowscapes. Along the way I have been influenced, guided and encouraged by a host of luminaries, friends and above all the community which holds our brand of music as dear as I do. These folk have the honor, or possibly the blame for letting me into the genre. Some but most definately not all who I owe much deserved thanks are: Steve Roach: Man you are the one who by the strength of your music made me feel I could be a part of this culture. My sincerest thanks to you. Vir Unis: John I was drawn to your music instinctively way before I found out you and Koch-Northrup were friends. John Koch-Northrup: Finding I worked with someone of your talent both musical and professional was the final blow to my hesitancy to start putting my musical excursions onto the hard drive. Luminescent Flow is the first disc release of mine on CDBaby..it is most assuredly not the last. My thanks

and very deep appreciation to you all. Curt
