A fretless bass and guitar doubleneck takes you on a creative sound voyage. 9 MP3 Songs JAZZ: Jazz Fusion, NEW AGE: New Age Details: Welcome to the latest musical venture by Dave Calabrese. It has been a wonderful experience having the opportunity to gig and record with this particular double neck created by my late cousin Steve Calabrese - a life long companion and worldclass musician. Playing this instrument through a Boss DD20 Giga Delay/Sampler Pedal has opened up an exiting array of possibilities. Fortunata is entirely self produced, 72 minutes long and is what one would expect to hear during a live performance. I hope you enjoy listening to the variety of sounds and moods channeled through this exotic instrument. Peace and good fortune to all! p.s.
