A mixture of European styles to put you in a floating state without taking a drug. 9 MP3 Songs

ELECTRONIC: Dance, JAZZ: Free Jazz Details: ESTEE started creating music on high-school. A couple of friends, a simple drummachine and lyrics from the mouth. But whatever was fun became more and more serious to me and resulted in a first E.P.release in 1992 by the name of 'TERROR', a real hard-core house release (for the Dutch - 'HAKKUH'). The next year I did part 2 of that project. So... now the producing part was real to me and made me hunger for more of it. In 1994 I went a bit mellow with the sound and released a couple of house/dance tracks. One of them reached the top 40 in the Netherlands, only on nr. 39 for one week but still?... I learned a lot from other producers and worked with many people in the bizz for that time till 1997, when I wrote my first songtext for a popular Dutch kids program called 'Kinderen voor Kinderen'. I went crazy because it was a Dutch childrens music TV show. After that... things went well and made two album tracks for the -in that time in Europe- very popular dance group 'T-SPOON'. After a short period of relaxing and studio upgrading, I'm back to do my thing.
