WORLD: World Fusion,

CLASSICAL: Postmodern Details: Cellist Jami Sieber has a talent for using her instrument like a painter, adorning her musical canvas with washes of vivid tones and reflective moods. That impressionistic, expressive nature is more evident than ever on her gorgeous album *Unspoken*. The instrumental soundtrack of the recent collaborative release, *Only Breath*, which features Siebers celloscapes in dialogue with mystical poetry, *Unspoken* is infused with the ineffable essence of the verses, allowing the listener to bask in the waves of music as they move from joy to grief to intoxication to stillness. From trance-dance rhythms to prayerful stillness, *Unspoken* dissolves boundaries of musical genre, melding indigenous chants and rhythms with visionary compositions that quiet the mind and set the body dancing. Beginning with Siebers pulsing, ambient cello and vocals in *Opening*, a current of multi-layered sound carries the listener seamlessly from the lush and contemplative depths of *Benediction*, through the rushing torrent of percussion, flute, bass, vocals and cello in *The River Between* to Ulalis primal cries at the close of *Night Song*. In the center of the journey, Benjy Wertheimers esraj and Jamis electric cello weave a richly textured interior world that gives birth to the irresistible grooves of the two worldbeat dance tracks, *Broken Open* and *Unspoken*, which fuse Native American chanting with layers upon layers of exotic instrumentation. The CD closes with the heart-opening track, *Returning*, set in a quartet of cellos with guitars, percussion and organ. *Unspoken* is a spiritual journey beyond ordinary consciousness, equally attractive to those who crave grooves that move the body and those seeking the music of silence, inner reflection and prayer. A ground-breaking recording that unifies indigenous and modern, stillness and movement, inner and outer; *Unspoken* awakens the senses and inspires the depths of the imagination.
