Songs you won't forget, lovingly arranged, for profound enjoyment. Guitars, drums, pianos, organs, strings. Like food. 14 MP3 Songs FOLK: Folk Pop, POP: Folk Pop Details: Jeff Jepson is a prolific singer-songwriter, born in Liverpool, raised mainly in the beautiful Isle of Man, now living in Liverpool with his base still in London (not as glamorous as it sounds). He has hundreds of songs he wants you to hear (for a reasonable price!). He has been in several bands and line-ups over the years in London and Liverpool and is now performing solo but with another band on the way. He records everything at home on his trusty budget ProTools set-up and a Mac. His earlier material (also available) was done on a digital 8-track. Drums on the current CD were played by Mr Martyn Thomas, who also took the photos. He loves cheese, bathes regularly and is kind to animals.
