A blend of electronics and World fusion. 11 MP3 Songs WORLD: World Fusion, ELECTRONIC:  
Experimental Details: The album New Direction is a spinoff of work done in the late 80's using the Amiga and a Dr. T's sequencer program mentioned above That were originally mastered on tape and recently transferred from the masters to cd. These early tapes were made in a very exciting time in MIDI work because it was a relatively new mode and was changing very rapidly. Artists such as Ray Lynch, and Kitaro were both tearing the wallpaper off the walls and softly pasting it back on at the same time. - John L. Allen 2003
