Original Country Rock Style future hits all written and sung by Lee Telle 14 MP3 Songs COUNTRY: Country Rock, COUNTRY: Modern Country Details: My name is Lee Telle. I am a musician/singer/songwriter and record producer. I was born in Baton Rouge, La. and lived there for 18 years then lived in Dallas, Tx. some of my life. I got a drum set at the age of 2 and that's when I decided to play music. My first record was Kiss Alive!! and Styx at the age of 5. I then started listening to my parent's old records of Loretta Lynn and Conway Twitty as well as the Beatles and Fats Domino and that is when I started beating on my dad's piano. At the age of 8, I got an Elvis Christmas album, Ac/Dc back in Black and Hank Jr. I used to listen to George Jones in my Grandpa's truck when I was little also. My musical desires became stronger and started playing guitar at the age of 9. One of my first concerts was Van Halen and when I saw Eddie Van Halen jumping around that's when I knew I wanted to play music as a career. I then played guitar in some rock bands as a teen started listening to artist like Lynrd Skynrd, Guns n Roses George Strait. I went for my dreams when an opportunity arose and moved to Texas at the age of 18 to be in a band that had a record deal. I've played on the same stages with many well known artists such as the Nixons, Alice Cooper, Pantera, Travis Tritt Tanya Tucker. The band eventually split up and my true love for country music happened when I got the chance to see George Strait and Garth Brooks sellout at the Texas Stadium. That's when I decided to start singing. My cajun accent developed into a little southern drawl from living there but didn't think that was too happening to sing rock n roll music therefore, I began singing country. I wasn't sure if I could be a front man because I was always used to playing guitar in bands. I then returned to my home; Louisiana. My dad wrote a country song that we recorded. We got such a great response I then wrote my own song called "Redneck Boy." One day I was surfing the net looking at Blake Luquette's website and was trying to figure out how to get

his CD and that's how I got in contact with the president of the Ralph Records Empire. I told him that I write and record my own music and where to listen to it on the web. Then one day the president of Ralph Records called me and wanted me to sign a record contract and that was that so here I am. Some of my musical influences are Lynrd Skynrd, Stevie Ray Vaughn, Van Halen, George Strait, Garth Brooks, George Jones, Motley Crue, Kiss, Guns n Roses, Frank Sinatra, Hank Jr, Charlie Daniels, Buck Wheat Zydeco, Jerry Lee Lewis, Marcia Ball, James Brown, and the king Elvis Presley. I like to fish, dance, cook, computers, going to the movies, producing other talented artists, writing songs, recording, play live, cowboy hats, boots, raising hunting dogs, going to concerts festivals and I love beautiful women.
