EASY LISTENING: Soft Rock, POP: British Pop Details: Welcome to our musical journey. All the material you will find by LSTL Music is original and has been created, performed, recorded and produced by LSTL. Since our inception of 2003 LSTL has created and recorded over 40 songs in almost 2 years with feel good positive music. The material is multi-genred. LSTL is not "stuck" in any one particular genre.

The music is "FEEL GOOD" material and totally varies in groove and style from one song to the next...which explains...in part why our music can move one on so many different levels...it crosses over the wide genre spectrum. Our music contains songs that have a strong "dash" of right from the heart with a twist of originality and a splash of many others... a sound that has a great sort of rolled out of bed and grabbed my guitar kind of sound that speaks volumes with influences that range from commercial rock (ala alice in chains) to early Beck and uber indie bands from England back in the 80's. We are high on expression and keep our actual song arrangements pretty loose "all Live production" which only attests to the broad variety of styles and versatility LSTL is able to capture with thier music. LSTL is no stranger to the music world of the internet. Since the 2003 the inception of LSTL.....internet streams and downloads have been quite massive accumulating well over 800 thousand listens from around the world and producing several #1 hits and lasting on their respective internet song charts. we hope you enjoy the musical "trip" that LSTL is able to capture for the music lover
