Contemporary acoustic solo guitarist that will knock you on your butt, then make you laugh, cry, and dance around the room. Cuts from Night Visions have been aired on National Public Radio, Vermont Public Radio, and the Oxygen Television Network. 11 MP3 Songs FOLK: Power-folk, EASY LISTENING: Background Music Details: "Intricate. Technical. Amazing. Three words best used to describe Peter Neri's first solo album. New England is home to a number of exquisite guitarists, but Neri isn't just folk. The Vermont resident has crafted a diverse and solid blend of instrumentals that impress and express." - J.H. Jam Music Magazine "Neri's got his shades on and his guitar tuned up as he travels the back roads of Kottke, Hedges and Legg. Worth the hitchhike." - T.J.M. Dirty Linen Magazine "Riding a continuum between classical guitar music and the aural fireworks of a Michael Hedges, (how does he get six strings to do that?) Neri's compositions are powerful listening." - W.C. Valley News Do you ever wonder where all those great, short acoustic guitar clips come from when you listen to NPR's "All Things Considered?" Artists like Peter Neri make them. In fact, you may have heard music from Night Visions already. It's subliminal, man. You're already humming along!
